Rev. A. J. Holt, the evangelist, has re-urned from his trip to the Holy Land, and is now engaged in a meeting at the Baptist church in this city. Great throngs at-tend the edifice nightly. Work on the Alexander institute is being rapidly pushed forward and soon will be

Henderson has built and equipped within a year two magnificent school edifices, and to-day stands without a dollar's worth of bonded indebtedness for the same.

TEXAS PROGRESS.

The woolen mill, the oil mill and the East me headquarters have all been secured by Greenville in the last few months. These enterprises have already added several valuable families to the city's population. When all are completed they will employ about 150 regular hands.

Both new houses and Aransas Pass property keep going up. Concrete walks are being put down in Sherman in front of several buildings on he west side of the square, and contracts for walks have been made by several other properly owners on that side.

Capt. W. B. Wheeler of Greenville contemplates erecting a couple of two-story brick buildings just east of the King opera house this season.

Carpenters are at work at the new ice and beer house at Rockdale. Col. Kelly wrote the mayor of Rockdale that he had placed the order for water-works outfit and that he would be ready to

go to work upon its arrival. He has also secured a contract with La Grange to put in waterworks and electric lights in that Mr. C. W. Batsell of the Sherman street

railway is putting in new steel rails on his track on South Travis street. The work of improving and repainting nouses still goes on in Terrell.

Beeville is still growing steadily and

Work is progressing on the county treasarer's office at Belton. New furniture has been ordered and Mr. Blair expects to be back in his old quarters before many days, The contract for building the third story of the I. O. O. F. building at McKinney, now occupied by the Mississippi store, has been let and work will begin at once.

The carpenters of Brenham, are kept busy, which is one of the strongest evidences of Brenham's continued upward and onward movement.

The Paris city council have granted rightof-way for a system of electric rallway, The new Lasker building at Rockdale has the roof on, and will soon be feady for oc-cupancy. The beer and ice house of the Lone Star brewery of San Antonio is being erected, and in two weeks, the company say, they will be doing business in Rock-

The Luling waterworks are now in full operation and sub-pipes are being laid as rapidly as possible.

Carpenters and all other mechanics in Honey Grove are busy.

W. H. Cassiday has commenced the erection of a two-story house on his lot on the corner of Fisher and Second streets. This will be another substantial evidence of the material growth of Goldthwaite.

Weatherford—The nice stone building of Mr. D. L. Luce on North Main street is nearing completion. Mr. A. N. Grant is building a nice 20000 dwelling in the southeastern part of the city. Hon S. W. T. Lanham and Mr. R. H. Foat each are just completing \$8000 dwellings in the southwest part of the city. Many other improvements are going on in Weatherford.

TEXAS NEEDS AND WANTS.

Kosse wants a street sprinkler. Luling wants brick works and electric

A street car line between the two depots at Luling would be a great convenience. It would pay the business men at Quanah to put some money in another mill and ele-

A street sprinkler is sadly needed in Hubbard. A home building and loan association would be a good thing for Decatur.

Anson wants a laundry, an elevator, a boot and shoe house, an ice factory, a corn mill and more houses.

Terrell wants an oil mill. Limestone county wants a county fair. A grain elevator would be a good thing for Gainesville.

Waterworks and street car extension to Evergreen cemetery would be nice for

Greenville needs a mile of concrete side walks in the business part of the city. Lone Oak wants a street grade line for

sidewalks. Among the other things she wants, Tyler needs better streets and sidewalks.

Cooke county wants more roller flouring Hutchins needs a good hotel, a barbe shop and a rain.

TEXAS NEWS AND NOTES.

Since November 12, 1890, 257 marriage licenses to whites and 55 to colored people have been issued by the county clerk of Fannia county.

A train load of street cars passed through Beeville yesterday en route for Aransas Pass, where they will be put on the track in a few days.

Temple is making entensive preparations to celebrate her tenth anniversary, Friday, the 29th instant. The Claiborne Moore farm of eighty-six

acres, a short distance from Hallettsville, has been purchased by Lavaca county for a poor farm, at a cost of \$1400. Postmaster Hornburg of Karney will re-

move to Beeville in a few days and the postoffice will be discontinued. The Hallettsville Breslau Schuetzen Ve Saturday, the 31st inst.

The streams between Mangum and Quanah will shortly be bridged for the ben-efit of trade, and the Mangum and Frazer people can then visit Quanah in any kind of

Work on the artesian well at Sherman has been suspended for a week, but it will soon be resumed. It is 1250 feet deep, The 5th of June is the time set for the Juling picnic at Soda Springs.

Mr. Dickson of Luling is progressing finely with his experimental brick kiln, and

thinks he can demonstrate to the people of this city that as good brick can be made here as anywhere in Southwest Texas. Up to this date the Southern Pacific rail-road has shipped 5809 bales of cotton; the

were destroyed by fire, making the receipts at Luling something over eleven thousand

Up to date since January 1 there has been 920 deeds, trust deeds and releases recorded

in the county clerk's office at Belton. The Cincinnati concert party have been engaged for the first week of Chautauqua at San Marcos. This is a quartette of musicians organized especially for Chautauqua work, and is said to be the best organization of the kind in the United States.

Some time ago at Fort Worth Capt. Mc-Donald of the rangers ran down and cap-tured a pickpocket who had just robbed an old man, and now he comes home wearing a beautiful gold badge, presented to him in appreciation of the capture.—[Quanah

Iron ore men of Jefferson were inspecting the Daingerfield ores Tuesday. Work is about to begin on the artesian well at the state orphan's home at Corsi-

Henderson-About 100 cars of the finest walnut timber in the log region has been delivered here and shipped elsewhere to

distant manufacturing points, a large part, in fact, going direct to Liverpool, Eng.

The Cherokee singing association will meet in Overton June 29 and 30. This organization is composed of delegates from a half dozen adjoining counties and is generally conceded to be a big event.

Hutchins-Preparations are in progress for the annual rounion of the pioneers of Texas to be held here second Tuesday and Wednesday in July (14th and 15th.) It will be an immense affair, and great preparations are necessary to prepare for the crowd that will be here then. Excursion tickets will be on sale from neighboring points. All are invited who wish to spend a pleasant day or two with us. Cool shades and plenty to eat and drink promised to all.

Duncanville—Dr. Hughes, late of East Dallas, has located in our town and will practice his profession here. The Gulf, Colorado and Santa Fe have a gang of work here preparing to put down two additional side tracks.

Denison—Dr. J. G. Ellis, the emi-ent specialist, is considering the mat-er of erecting an extensive infirmary at Cook's mineral springs, four miles south of Denison on the Sherman, Denison and Dal-las railway. The waters have been tested and are of a very superior health-giving quality, dnd Dr. Ellis is very favorably impressed with them.

Pilot - Point, May 29.—A lodge of the Knights of Pythias was organized here the Knights of Pythias was organized here this week the work being completed last night. The following gentlemen were installed as officers: H. M. Russell, P. C.; Eli Gee, C. C.; E. O. Floyd, V. C.; H. G. Nicholson, P. P.; J. M. Pickel, M. A.; Gordon Elmon, E. C.; Joe King, K. R. of S.; J. E. Peel, M. F. Some twenty odd members were wearing. The lodge takes the bers were received. The lodge takes the title of Pilot Point lodge Knights of Pythias

TEXAS MILLS AND FACTORIES.

The contract for the oil mill at Waxa-hachie has been let and work will proceed Dr. Brooks informs us that he has ad-

ices that the oil mill men will be in Rockdale to-day, and the erection of an extensive plant at this place is a thing of the near future.—[Rockdale Messenger. The Belton ice factory has started up in full swing.

Work on the large new gin is being pushed right ahead. When this important enterprise is placed in motion Bartlett can boast of three of the finest gins in the

county. The Decatur canning factory opened last week and has been canning peas. Berries and fruit will soon be ready, and then steady work will commence.

The compress company of Honey Grove is shipping the heavy machinery back to the foundry to have it repaired from the damage by fire. They are going right ahead with rebuilding the compress, which will be all o. k. for the next season.

The contract for the buildings for the woolen mill has been let and work com-menced in Southeast Greenville. Messrs, J. N. Hughes, J. B. Dale and Hugh Halsell, the cotton seed oil mill men, are in Greenville ready to push work on their buildings to be erected in Northwest

Greenville, on the old compress site, The Jim Hartman gin at Rockwall is nearing completion, and when finished will be one of the finest gins in Rockwall

county. The Belton oil mill company will increase sixty tons during the summer.

Work on the new bag factory is progress-ing magnificently, and soon Sherman will have another first class factory in opera-

Mr. W. H. Deesler of Pawnee, Kan., a practical creamery man, is in Greenville with a view to making some sort of a deal to take charge of and operate the Greenville

Greenville-The lumber, brick and other material for the woolen mill buildings are being placed on the ground. Work on the

oundation is progressing rapidly.

Work on the oil mills will begin at once. Whitewright-A number of our progressive citizens met in the opera house to-day to

perfect arrangements to build a cotton seed oil mill. O. Y. Rathbun was called to the chair and J. G. Ruebell chosen secretary. It was decided to build a forty-ton mill at once. Fifteen thousand dollars of the stock was subscribed and a committee selected, with Dr. May as chairman, to solicit the balance of the \$30,000 stock. The commit tee are confident they can secure the neces-sary amount by Monday next.

Duncanville-The large Munger gin at his place will be completed by July 1 Henderson-A scheme is now on foot to organize a stock company with a capital of \$150,000 to build a huge tram from this city down into the heart of the long-leaf pine timber tracts about fifteen miles distant. Already the idea is meeting with encour

agement. One large milling company has offered to establish a \$40,000 plant here immediately. Pilot Point-The Pilot Point canning facfory is getting in readiness to put up an immense crop of corn and tomatoes. It will also can or evaporate a quantity of peaches

SHERMAN, May 29.-The Chickasaw SHERMAN, May 29.—The Chickasaw compress company was organized in this city to-day, with permanent headquarters in Snerman. They will apply for a charter with \$5000 paid in capital. The following were elected officers: F. J. Phillips, Greenville, president; N. A. Birge, Sherman, vice-president; C. C. Rountree, Sherman, secretary and treasurer; H. H. Pennington, Ardmore, general manager. The Bretham press will be rebuilt and moved to Ardmore press will be rebuilt and moved to Ardmore

JEFFERSON, May 30 .- John A. Kruse, president of the Lone Star iron company, P. J. Howard and J. H. Ralston, arrived to-day from Boston, Chicago and other Northern points where they had been to see the stockholders in regard to building a \$1,000,000 steel plant at this place. The furnace will start up again the first of next week, the necessary supply of coal having

TEXAS MINES AND MINERALS.

Henderson-The hopes and realizations of New Salem people in the south end of the county have been bordering skyward. For the past few months parties representing a large syndicate have taken options on all the available ore lands in the vicinity.

Kinsen Dallas May 27. SONORA, SUTTON COUNTY, May 27.—On yesterday evening and to-day there have been brought in town several large bottles of oil. It came off a ranch of one Cooper, several miles south of town, who was boring for a stock well, and when at the depth of 390 feet struck oil. He has bored nearly fifty feet deeper since, trying to strike a strong vein of water; in the mean-time his machine has themen out dolly Kinsey, Dallas, May 27. Mr. Martin Janezak and Watding, Brenham, May 25. Mr. August Dreydappie and Miss Jennie Hyatt, Palestine, May 21. Mr. W. H. Freman and Miss Josephine Vinson, Sherman, May 24 Mr. Harvey John and Miss Ida Manning, Waxanachie, May 21. Mr. John Bobalik and Miss Annie Lomica, time his machine has thrown out daily from three to five barrels of this oil. It looks much like dark sorghum and is quite as thick. It smells much like kerosine oil Mr. J. W. Cummings and Josie E. Jen-kins, Warnharhie, May 24. Mr. David Gant and Miss Lizzie Gardner, and has something of a tar odor. It is very greassy and hird to wash off the hands. Our citizens are much excited over this discovery. We have had the pleasure of

From present indications the prospect for a big immigration into Bee county this full is better than ever before, and there will probably be more farming lands sold Made in a Minute.

The Inventor of the Celebrated Minute Cof-

fee Pot

has asked us to introduce it in Fort Worth, as we did in Kansas City. We have consented to do so.

On Monday we will take pleasure in presenting all who may favor us with a call with a cup of coffee made before their eyes, and in less than one minute. We feel sure you have never tasted finer coffee in your own house nor any as good away from home.

What is the idea of coffee in a dry goods store?

It is this: The invention of the Minute Coffee Pot marked in era n table luxury -comfort and ease. A house wife make her own coffee on eakfast table, if she chooses, in one minute. It is clear, aromatic, hot, all in a minute. It is more economical than any other coffee pot and the flavor is such as you can get from no other process. Come and try it. No charge. It is not our inten tion to continue the sale of the coffee pot longer than it is introduced and the hardware dealers keep them, which will not be long, but the only efficient way to introduce an article of this kind to ladies, and do it quick and cheap, is to show

it where ladies congregate. G. Y. SMITH & CO.

Fort Worth Agency with Miss Eldredge, Hirshield Building. close neighbors, we would endeavor to secure them small farms in size from twenty to one hundred acres on terms that would enable them to pay for their homes with the produce of their farms, and especially so when there is one advance payment. However, it is better all around when the land can be paid for in cash. This, however, cannot always be done.

Do you ask why we devote so much space inviting the small farmer to this county? We answer that is a matter of our own. We want that class and are going to get them. If other sections want dudes, growi-ers, professional do-nothings, pensioners upon honest tollers and snipe-legged scapegraces, just send in your requisition and this community will avor to ship you an invoice of all mave on hand.

We are to ag to build up our community, no consurrounding Terrell, knowing at when this is done, the city will grow at meaner involuntarily. We know this to build up our community, and prosper involuntarily. cannot be done by importing the scrapings from elsewhere, for they do not even make good scavengers, but stick like festers and fivblows to any good community.

Yes, we want manufactories, we want them bad enough, too, but want only factories and enterprises as will be profitable and produce employment and wealth, aid in development of city and county in a healthy, permanent way. We may be selfish along this line, but our selfishness is for the good of Terrell and those who live here or even visit our people.

As crops will soon be gathered we are be ginning to look for a good invoice of the 10,000 small farmers from the Southern and and raise variety crops, so as not to be dependent on any one production.

Arrangements will be made to settle a good size settlement close together if necessary. For instance, if twenty or thirty young men with families can be secured from the same section who would like to be

dolent farmer, whose ambition has been covered up out of sight by laziness and thriftlessness, and occasionally stumble over the rag-tag and bob-tail growler, whose aim in life is unknown even to himself or anybody else, if he has any. But there are lots of good people here, a larger per cent to the population than you will find in most communities. This assertion is made with the knowledge that expectation that people will investigate. That is and we are prepared to show our as

will pan out all right.

The health of this of is splendid, there being no local streams of water, owing to the main water. owing to the main water supplied by tanks, or stock is secured by tanks, or bodis during the winter. The county is rolling sufficiently for excellent drainage. Water for drinking purposes is secured by wells or eisterns in good quality and quan-tity. There are portions where the water is bad, and those who want bad water can be supplied. The same can be said in re-gard to soil. All kinds of soil except that there are no rocks. This immediate section is almost entirely destitute of rocks, at least any way near the surface. We need the best element of farmers.

We have room for them, we propose to secure them and that in an honorable way. For every dollar received

for every usual for subscription to its will be sent to and hated outside the state, or es for one year will be sent outside Special Inducement
